Re: January 2016 Meeting Schedule

The council has a couple of options on how they would like to proceed with the January 2016 meeting schedule.

One, we can hold a special meeting earlier in the month for the purpose of making appointments (EDA, city attorney, city engineer, etc.) Most cities will hold a meeting earlier in January if there are new officials that need to be sworn in as well.

Second option, since we didn't have an election this year we could push all of the appointments and make them at the regular January meeting.

What would council like to do?
